Early Intervention

for Children with Hearing Loss

Canossian EIPIC

Early Intervention Programme for Infants and Children (EIPIC) highlights:

- Only programme that specialises in supporting children with hearing loss to reach their full potential
- Emphasising the Formation of the Heart, focusing on the character education of each and every child
- One-stop support for children with hearing loss through a multidisciplinary team approach

For enrolment, contact us

What is EIPIC?

Support from experienced professionals:

Early interventionists, audiologists, speech and language, educational, and occupational therapists, psychologists, and social workers

Holistic, family centred practices:

Regular parent training workshops, yearly home visits, and family intervention by the psycho-social team

Inclusive childcare and school bus transport service available

Through language learning and developmentally appropriate activities that promote **inclusion in a language rich, safe, and nurturing environment**
